

MAZDA3

MAZDA VISION COUPE

Classic proportions further elevated via the delicate art of creating light and shadow by human hand. Mazda redefines the image of elegance through a sculpted minimalist form that comes alive with a sense of warmth and seductiveness.

MAZDA RX-VISION

A mature expression of dynamic vitality through simplicity. The Evolved KODO Design language adopts the 'less is more' Japanese aesthetic. Doing away with excessive character lines allows the movement of reflections to make the form come to life.

We believe in the power of human potential; creativity, imagination, and the amazing things we are all capable of when we're inspired.

We believe in taking the unconventional road and going the extra mile to do work that inspires.

We believe in artisans, designers, engineers, and ambassadors who pour human energy into their work.

We believe in the power of cars to move human emotions. To awaken the senses, heighten reflexes, make pulses race.

We believe the joy of being alive comes from what we discover on our journey, and the inspiration we find in every mile.

Mazda makes you feel alive.

Mazda3 Fastback: design that liberates the spirit. With sensuous, free-flowing curved surfaces that reflect your ever-changing surroundings, evoking powerful emotions of freedom and self-expression. Opening up a world beyond conventions, where only you set the limits to your imagination and what you can achieve. It's design elevated to a provoking work of art.

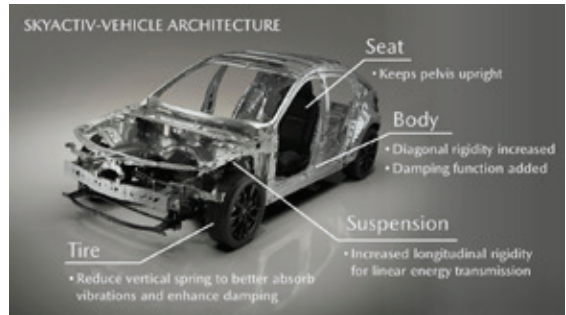

ELEGANCE AND REFINEMENT

The Sedan's flowing, graceful profile lends itself a sophisticated presence with a calm, refined air. A mature audience will certainly appreciate its exterior's smooth surface movements and elegant beauty.

MOTION INSPIRED BY YOU

SKYACTIV-VEHICLE ARCHITECTURE

From the time we learn to walk, we learn to control our center of gravity – and thus our balance – entirely without conscious thought. It becomes as natural as breathing. And it is the inspiration for Mazda's Skyactiv-Vehicle Architecture, aimed at enabling you to fully maintain your balance even inside the vehicle.

G-VECTORING CONTROL PLUS (GVC PLUS)

GVC Plus is one more way Mazda's human-centric engineering makes vehicle movement more responsive, more confidence-inspiring and just more comfortable. As you enter a bend, GVC Plus momentarily lowers engine torque to transfer weight to the front wheels and enhance grip. Then as you go through the curve, engine torque is restored to shift weight rearwards for greater stability. Finally, as you exit the bend brake force is slightly applied to the outer wheels to help recover straight-line running.

CLEANER, MORE EFFICIENT ENERGY

SKYACTIV-G

Conventional internal combustion engines only harness around 30% of the potential energy in the fuel they consume: the rest is wasted. So Mazda developed SKYACTIV-G, a high-efficiency engine that compresses the air-fuel mixture to a much higher degree than in conventional powerplants, squeezing far more energy from every drop of fuel. This high compression ratio, unparalleled among mass production engines, delivers both sheer driving pleasure and outstanding fuel economy.

THE QUEST FOR SUSTAINABLE DRIVING

HYBRID

An innovative evolution of hybrid car technology, Mazda Hybrid maximizes every bit of energy normally wasted during braking. It is now available on the Mazda3 Sedan and Fastback.

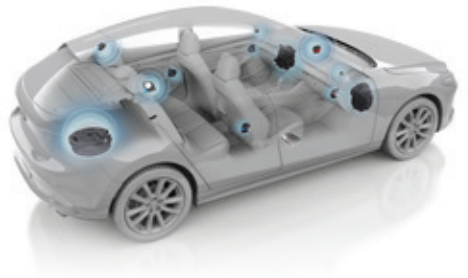

Instead of being unused, it is stored as electric energy in the battery, which the 5.1 kW (6.9 PS) integrated electric motor uses to propel the vehicle independently from the internal combustion engine. Using the stored energy eases the engine's load, thus improving fuel economy and reducing carbon emissions.

THE SENSIBILITY OF SOUND

MAZDA HARMONIC ACOUSTICS

Assured control of sound in the cabin — whether noise or music — is another key element of driving pleasure, superbly achieved by Mazda Harmonic Acoustics. This far-reaching audio initiative was developed to create a quiet cabin that insulates you from unwanted and distracting outside noise, while still allowing for the subtle sounds from the road and engine that add to the driving experience. It also drove the design of the audio system to deliver the same rich sound at both low and high volumes. Particular attention was paid to speaker placement to give deep, satisfying bass and clear, well-localized mid- and high-frequencies. The result is detailed, natural reproduction of music with astonishing depth and clarity at any volume.

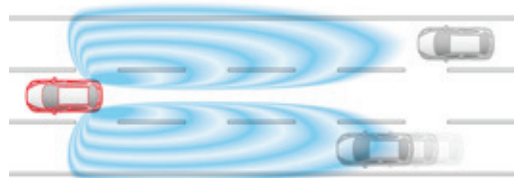

REASSURING SAFETY, DRIVING ENJOYMENT

MAZDA i-ACTIVSENSE

Mazda expanded the concept of safety, taking it beyond the conventional thinking on advanced safety technologies to also include the driving position, information layout, visibility, and driving dynamics. It's an ongoing effort to provide a safe and reassuring experience for everybody, including passengers in the rear seats, with the ultimate aim of making accidents a thing of the past. Mazda engineers developed i-Activsense, a suite of advanced safety technologies that includes Driver Monitoring, Front and Rear Cross Traffic Alert, Smart City Brake Support (SCBS),

and Blind Spot Monitoring to further enhance the driver's awareness of potential hazards. This evolving and all-inclusive approach to safety takes Mazda closer to its final goal of eliminating traffic accidents and enhanced driving pleasure.

DRIVE NATURALLY AND SAFELY

Experience confidence-inspiring ease of operation.

The Mazda3 provides the pleasure of a natural, comfortable, relaxing, and safe drive.

5 YEARS FREE SERVICE PLAN

Worry-free ownership is the hallmark of the Mazda driving experience. We believe that ease of ownership is key to a long and lasting relationship with your Mazda.

That is why every brand-new Mazda vehicle includes FREE parts and labor for every scheduled Preventive Maintenance Service for five years, or up to 100,000km odometer distance, whichever comes first. If you happen to need assistance, you may avail of emergency towing and minor roadside repair support*, which comes with your brand-new Mazda. These unique benefits further enhance your Mazda's three-year, or 100,000km, New Vehicle Limited Warranty, Bumper-to-Bumper coverage.**

With over 19 full-service dealerships across the country ready to attend to your vehicle's needs, you can celebrate the joy and freedom of driving that only a Mazda can deliver.

Owning a Mazda is more than just driving with confidence and reassurance. A hassle-free ownership experience is the fulfillment of Mazda's promise to be your reliable partner in life's amazing journeys.
